

K-LOVE is the only station me and my family listen to. I have a 13 and 6-year old daughters. I think K-LOVE is the best station for kids. There is no bad language or subject content. It is always safe and commercial free and teaches my children and my family of GOD's constant love and blessings. KLOVE serves the entire community by constantly being available to those searching for hope and help. They provide help by allowing free of charge messages for missions and other community based programs needing help with funds(allowing listeners to return the service that KLOVE constantly provides us). I am a financial supporter of KLOVE and LOVE the fact that it is commercial free and listener supported. Please continue to keep KLOVE on the air. I need them!! And so do many more people and listeners! Thank you.
